

Ever thought about it?

trip to the moon
(man-made)

the moon
(God-made)

The moon is the perfect size and distance from Earth. Its perfect gravitational pull creates tides so our oceans do not stagnate, but not so much movement that our massive oceans spill across the continents. Is our world just a result of random chance plus time? Or was it thoughtfully and precisely created by a God?

To see some inspiring evidence for the existence of a loving Creator whom you can know personally, see the feature article **"Is There A God?"** at www.EveryStudent.com.
